

### **Extraordinary Opportunity!**

Diane Babalas, D.C. is looking for an enthusiastic chiropractor with a Bio-Geometric Integration background to share their marvelous adjusting skills in Ann Arbor, MI. Dr. Diane will need help during her maternity leave from June through September. This is a fantastic chance for someone who is ready to learn, excited to hone their BGI skills, pick the brain of an experienced BGI practitioner and jump into practice.

### **About Diane Babalas, D.C.**

Diane has been serving the community of Ann Arbor, MI since 2000. She has studied BGI since it's inception in 1999 and has had the opportunity to study directly with Sue Brown, D.C. In addition to a decade of experience with hands-on skills, Diane spent 3 years intensely focusing on business building strategies with different coaches, including a year of "one on one" with Tom Preston. She has built the practice of her dreams and the joy she feels for chiropractic and life is evident in each aspect of her practice.

Diane loves to teach and has had the opportunity to work with another covering chiropractor 2 years ago when her first child was born. It was a wonderful for all parties involved. Especially for the practice, who enjoyed supporting someone in their learning, having different insights and simply getting the chance to get adjusted.

Diane shares an office with her husband Greg Knollmeyer, a certified reflexologist. Their space is warm and inviting and often filled with the positive energy and laughter that their 2 year old daughter Tessia brings when she visits the office.

### **About Gateway Chiropractic**

A family wellness practice, [Gateway Chiropractic](#) serves a diverse population from infants to seniors; with the majority of practice members enjoying the benefits of true wellness care.

Dr. Diane adjusts in an open adjusting space with 7 tables plus an additional Drop Style table. For new member evaluations or more private sessions there is also a separate room with 1 table for an adult and 1 table for a child.

Also, our friendly and knowledgeable office manager Kelly has all the experience needed for the chiropractor to be allowed to focus on what they do best; serving an exceptional chiropractic experience.

### **The Opportunity**

Ideally, the covering chiropractor would be able to work side by side with Dr. Diane before the birth. This will allow them to receive mentoring, meet the practice members, and get comfortable in our community. As the birth approaches, Dr. Diane will work less and eventually not at all—giving the covering chiropractor a chance to work independently. As Dr. Diane feels stronger, she would begin to transition back into the practice. During all of this time, the covering chiropractor would be adjusting about 18 hours a week. An added bonus of this opportunity is the chance to learn our tested and successful systems and procedures.

### **About Ann Arbor, MI**

The home of the University of Michigan, [Ann Arbor](#) is a diverse, interesting and fun college town. In the summer months that you would be considering being here, there is an abundance of great weather, free outdoor music and affordable housing. We have an excellent public transportation system plus we are a bicycling friendly town.

### **Candidate Experience and Qualities**

- Attendance to at least one BGI 3
- Be eligible for and obtain a Michigan License (We'll help with the license if you've met the board requirements)
- Availability from June 1<sup>st</sup> to September 30<sup>th</sup> (or very close to those dates)
- Comfortable with new situations and people
- Comfortable adjusting several people simultaneously in an open room
- Good listening and communication skills

### **Benefits**

- Payment
- Mentoring from experienced chiropractor
- Increased skills and confidence
- The chance to learn successful practice systems and procedures
- Experience adjusting in a vibrant practice
- Proximity to Chicago to visit Dr. Sue's office for adjustments
